- C#
- SQL / Databases
- ASP.NET Core (Web API)
- Node.js
- DevOps / Swagger / Docker

LANGUAGE

Georgian ██████████
English ██████████
Russian ██████████

Portfolio: Giorgi_Khuskivadze

PROFILE

Highly motivated Full-Stack developer with a solid foundation in web technologies. Full-Stack graduate of IT Academy STEP Georgia and GTU Computer Science faculty. I specialize in building responsive front-end interfaces with Angular and robust back-end systems using ASP.NET Core (C#). I have experience working with SQL databases. Active member of the technology community with strong communication skills and a passion for continuous learning. I am looking to contribute my technical knowledge to a professional team.

EXPERIENCE

- I built a full-stack application using ASP.NET Core Web API for the backend and Angular for the frontend.
- Containerization and DevOps: Gained hands-on experience with Docker for containerizing applications and using GitHub.
- I took AI Integration: Explored the application of artificial intelligence and its practical applications to streamline development workflows and improve application logic.
- I took IT Fundamentals: Strengthened core computing knowledge through the CompTIA framework, which includes networking, security, and hardware fundamentals.
